

ALO

Photo Sphere

PRODUCTS VISUAL CONTENTS

ALO Photo Sphere is our top of the line equipment. With its 3 rotation axis, allows anybody to create amazing photos and videos suitable for every need: e-Commerce, technical pictures, still life, social media contents, catalogues and magazines. The machine allows to create videos, live presentations and 360° animations.

ALO Photo Sphere allows you to create the best conditions for product photography. A shadowless environment with a technology that provides a properly diffused light where needed.

Hardware

Light sources

Our proprietary ALO Electronic Lighting System fully controls the four light sources of ALO Photo Sphere directly from the app, in terms of light tone and color intensity. Manage front light, back light, diffused lights and the external spotlight.

Hardware

Two automatic axis

From the software you can manage the 360° rotation of the turntable and the spherical rotation, enabling the selection of specific degrees. Additionally, you can tilt and rotate the camera support for locating the precise angle and optimal view of your items.

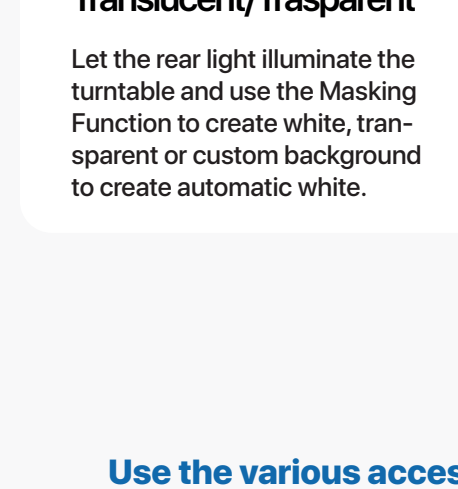

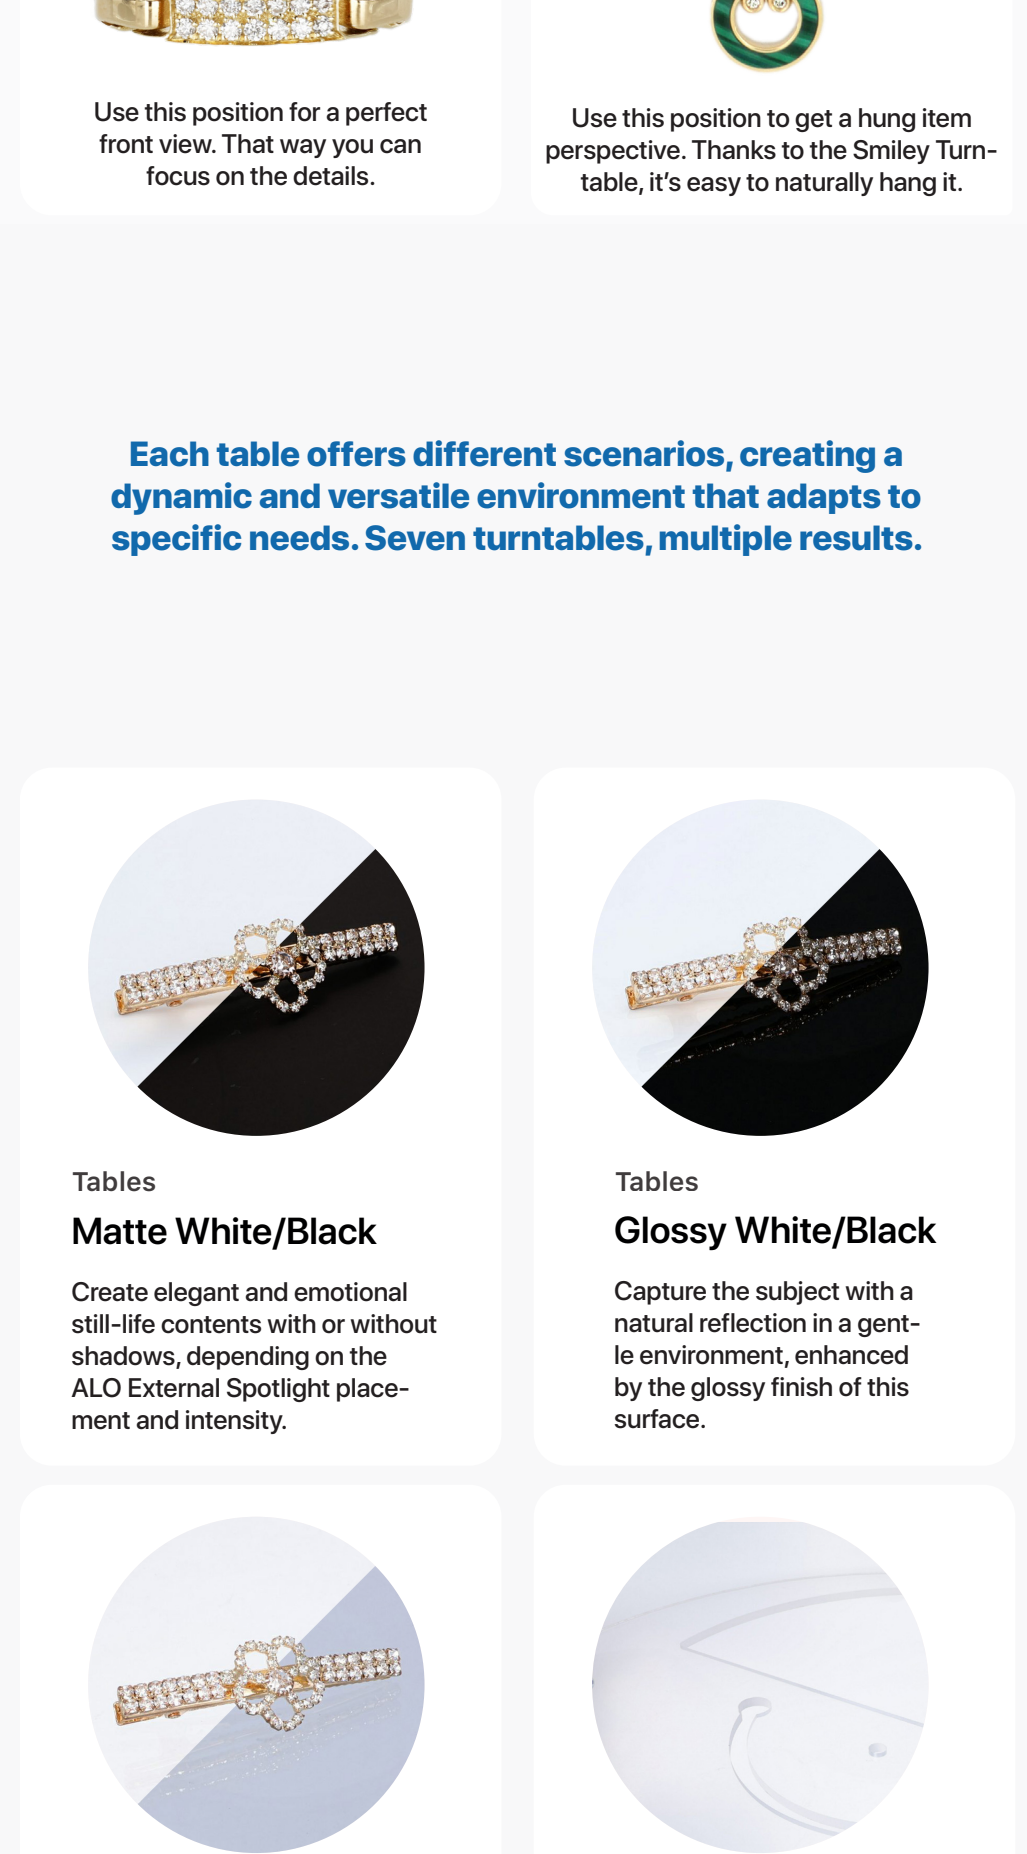

Hardware

External Spotlight

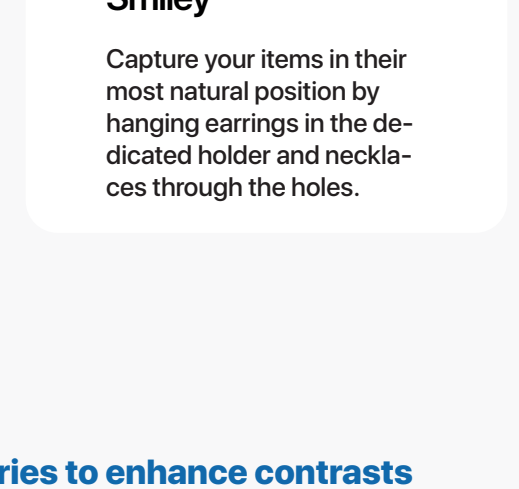

The movable light that allows you to create circular spots and add three-dimensionality to the subject, thanks to the spherical shape. The translucency of the domes lets the leds from this source gently illuminate objects and create customized highlights.

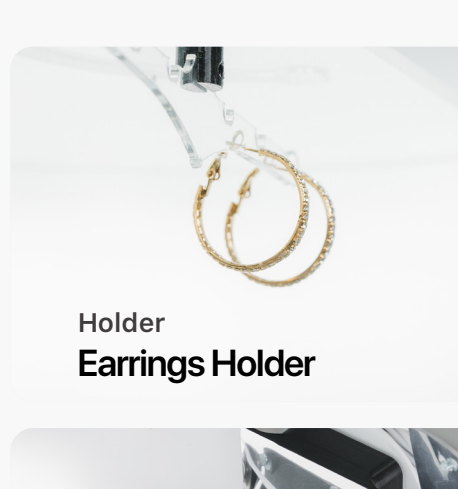

Two robotic axis and two manual axis, contribute to obtain a 360° view of the product. Without touching it.

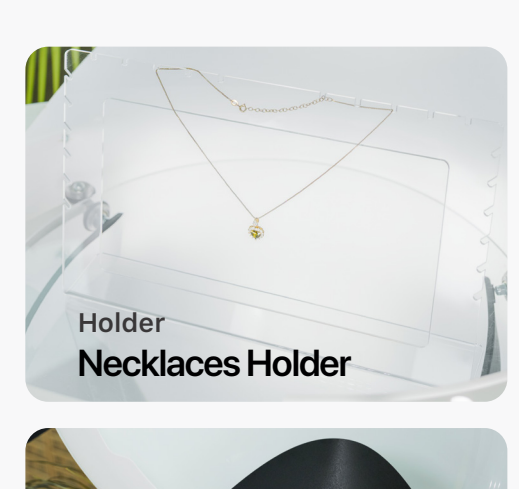

A perfect top view of the item with technical drawings at a 1:1 scale

Use this position for a perspective view that returns a natural piece with a highly emotional angle.

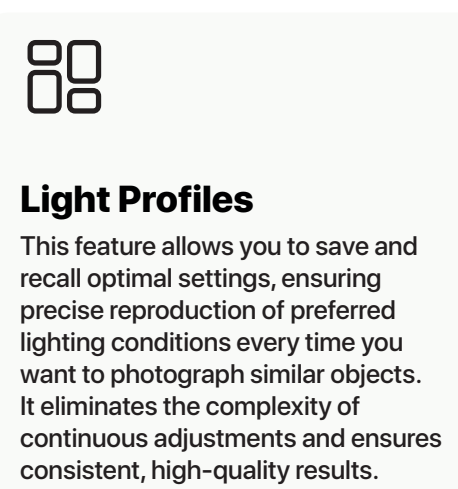

Use this position for a perfect front view. That way you can focus on the details.

Use this position to get a hung item perspective. Thanks to the Smiley Turntable, it's easy to naturally hang it.

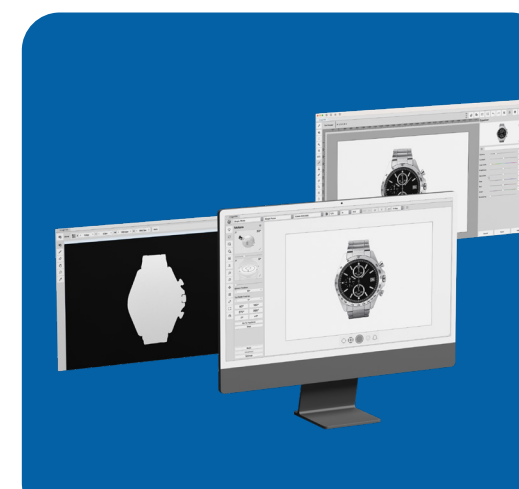

Each table offers different scenarios, creating a dynamic and versatile environment that adapts to specific needs. Seven turntables, multiple results.

Tables

Matte White/Black

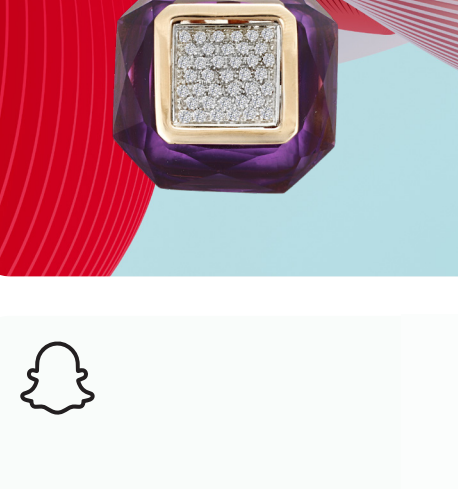

Create elegant and emotional still-life contents with or without shadows, depending on the ALO External Spotlight placement and intensity.

Tables

Glossy White/Black

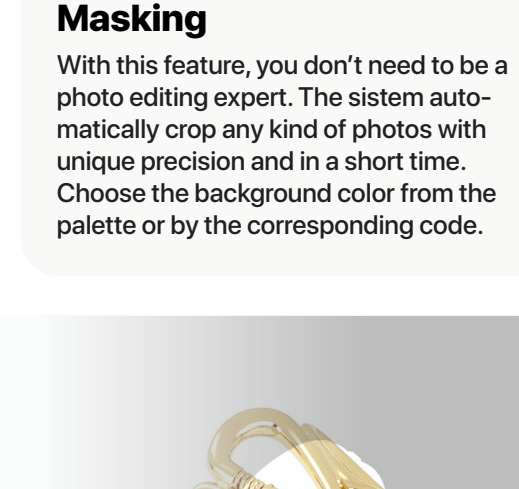

Capture the subject with a natural reflection in a gentle environment, enhanced by the glossy finish of this surface.

Tables

Translucent/Transparent

Let the rear light illuminate the turntable and use the Masking Function to create white, transparent or custom background to create automatic white.

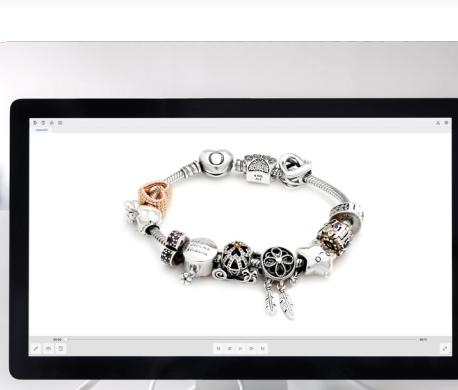

Tables

Smiley

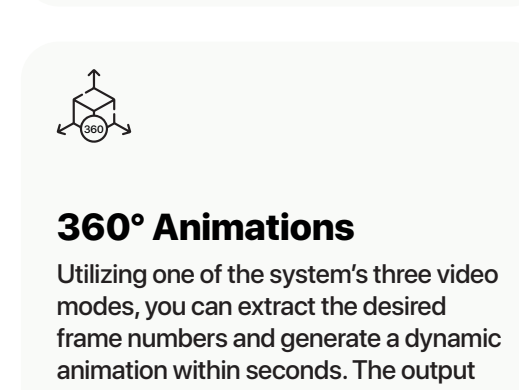

Capture your items in their most natural position by hanging earrings in the dedicated earrings and necklaces through the holes.

Use the various accessories to enhance contrasts and reflections in your objects or simply shoot earrings and necklaces in their most natural position. Easy tools for refining your pictures.
